Publisher: ILO-Country Office for the Philippines (CO-Manila)

Working and employment conditions in the agriculture sector in Thailand: A survey of migrants working on Thai sugarcane, rubber, oil palm and maize farms

While the sector has seen a decline in the number of workers in recent years, some 12.7 million

workers, approximately 30 per cent of Thailand's total labour force, work in agriculture today. Increasingly, the sector is depending on migrant workers from Cambodia, the Lao People's Democratic Republic, and Myanmar to fill the growing labour shortages in the sector.

Publisher: ILO-Regional Office for Asia and the Pacific

Present and future of work in the least developed countries

The report provides an overview of the state of progress and the structural challenges faced by least developed countries (LDCs) along the dimensions of structural productive employment and just transition. It describes current trends in production, productivity, employment and decent work, as well as the role of social protection and institutions of work.
