

- Building knowledge
- Creating conducive national frameworks
- Strengthening national capacities
- Promoting demand for safe and healthy workplaces

**ZONE OF ACTION**  
WHAT WE WOULD DO / OUTPUTS

- ▶ New methodologies and tools to investigate OSH issues are available
- ▶ Global and national estimates, reviews & research pieces on selected OSH issues are available as part of the Programme research agenda
- ▶ Support is provided to the development & adoption of OSH profiles, policies and programmes
- ▶ The ratification of ILO OSH Conventions is promoted & support for the adoption of OSH legislation is promoted
- ▶ Social dialogue platforms promoting OSH are supported at all levels
- ▶ Support is provided to improve the collection, analysis & reporting of OSH data
- ▶ The capacity of law enforcement institutions (labour inspectorate, judiciary) is strengthened
- ▶ The capacity of social partners & other OSH service providers to promote OSH at national, sectoral & workplace level is enhanced
- ▶ At country level, awareness- raising activities in relation to specific risks/ sectors/target groups, are conducted
- ▶ At global level, awareness raising activities on challenges & opportunities to OSH are conducted through the implementation of the Programme communications and visibility strategy

**ZONE OF INFLUENCE**  
RESULTS WE WILL HELP TO ACHIEVE / OUTCOMES

Greater understanding of OSH needs and challenges

Conducive national frameworks on OSH in place

National capacities are strengthened

Demand for safe and healthy workplaces is promoted

**ZONE OF IMPACT**  
CHANGES TO WHICH WE WILL CONTRIBUTE / IMPACT

Greater adoption of OSH management systems in workplaces

Workers are safer and healthier
