

Outcome 8 – The world of work responds effectively to the HIV/AIDS epidemic

RESULTS BY INDICATOR

Indicator - 8.1. Number of member States that, with ILO support, develop a national tripartite workplace policy on HIV/AIDS, as part of the national AIDS response

African Region

Measurement

To be counted as reportable, results must meet the following criterion:

1. A national tripartite workplace policy is developed on the basis of the ILO code of practice on HIV/AIDS and the world of work (if an ILO standard on HIV/AIDS is adopted by the Conference in June 2010, the standard will be used to guide the tripartite workplace policies).

		social protection schemes.	
Solomon Islands/SLB902 Workplace policies and programmes on HIV&AIDS are developed and applied.	1	A tripartite policy on HIV has been developed beginning 2013 with the Division of Labour, who is now working jointly with the Solomon Islands Chamber of Commerce and Industry (SICCI) and Solomon Islands Council of Trade Unions (SICTU) to develop training manuals on HIV and/ AIDS based on this policy.	Through organizing of tripartite workshops, ILO has raised awareness on HIV and/ AIDS basics, the 10 principles of its Code of Practice and Recommendation 200, as well as on the social, economic and development impact of HIV and/ AIDS.
Papua New Guinea/PNG128 HIV/AIDS workplace policies will be adopted and implemented.	1	An HIV tripartite Workplace Policy for the Royal Papua New Guinea Constabulary was formulated and endorsed in 2012. The policy is consistent with the key principles of the ILO Code of Practice and R200	The ILO through its /SPC Project on Eliminating HIV at the Workplace has provided the following technical and financial support: 1. Drafting of the HIV tripartite policy 2. Training of labour inspectors on inclusion of HIV issues in their inspections. 3. Preparation of a technical memorandum to the OSH Bill on HIV at workplace.

Americas

Guatemala/GTM128

Los constituyentes de la OIT fortalecen sus capacidades para formular políticas sobre VIH y SIDA.

1

El sector de la caficultura desarrolló durante 2013 una política tripartita sobre el VIH y el sida en el mundo del trabajo, la cual contó con la participación e insumos de los empleadores y trabajadores del sector, así como del gobierno y de representantes de organizaciones de personas viviendo con el VIH. La política tripartita sectorial recogió los principios claves de la Recomendación núm. 200 sobre el VIH y el sida en el mundo del trabajo y brinda lineamientos en base de las cuales los lugares de trabajo en el sector del café puedan desarrollar programas que faciliten el acceso a la prevención, tratamiento, atención y apoyo a los trabajadores que viven con VIH.

Con el apoyo de Noruega, la OIT brindó asistencia técnica (asesoría) para la elaboración de la metodología participativa que se utilizó para el desarrollo de la política sectorial tripartita. También facilitó la consultoría y el diálogo tripartito por medio de talleres y grupos focales con la participación de la población de trabajadores y los empresarios del sector, así como de organizaciones que representan las personas viviendo con el VIH. La OIT también brindó asesoría técnica a los mandantes para la elaboración y revisión tripartita del documento de la política para el sector de la caficultura en el país.

Indicator - 8.2. Number of member States where tripartite constituents, with ILO support, take significant action to implement HIV/AIDS programmes at workplaces.

Measurement

To be counted as reportable, results must meet the following criteria:

1. An HIV/AIDS workplace programme is developed and launched during the biennium in at least five workplaces.
2. The programme has been developed by a bipartite or tripartite HIV/AIDS workplace committee, and integrates the ten key principles of the ILO code of practice on HIV/AIDS and the world of work, and includes specific measures to address non-discrimination, gender equality, healthy work environment, social dialogue, no screening and confidentiality.

Country/ Country programme Outcome (CPO)	Measurement Criteria	Result Achieved	ILO Contribution
Africa			
Senegal/SEN129 Le monde du travail à des capacités renforcées pour la lutte contre le VIH SIDA	1	Cinq entreprises du secteur formel situées dans la zone franche industrielle de Dakar ont été formées pour élaborer et pour mettre en œuvre des politiques et des plans d'actions de lutte contre le VIH et le sida en Décembre 2013	BIT a assuré la préparation et l'animation technique d'un atelier de formation des points focaux des entreprises ainsi que le suivi de la mise en œuvre des programmes. Le BIT a aussi assuré la mobilisation des ressources auprès du Ministère du Travail et des entreprises : 25 entreprises de Dakar ont été sensibilisées sur la lutte contre le VIH et le sida en milieu de travail suite à un atelier de plaidoyer organisé à leur intention
	2	Les programmes ont été développés à travers un processus bipartite, avec l'appui technique du BIT et du ministère du travail. Des comités sur le VIH ont été établis ou un comité d'hivaiene et sécurité a été	BIT a assuré l'appui technique formulée par le Ministère du Travail, a assuré la préparation et l'animation technique des ateliers. Le financement des activités étant à la charge du Ministère du Travail 30 inspecteurs du travail sont formés sur les directives conjointes

		<p>utilisé pour coordonner les activités dans les entreprises. Chaque entreprise a nommé un point focal.</p>	<p>OIT/OMS/ONUSIDA afin de renforcer leurs capacités d'intervention auprès des professionnels de la santé dans le cadre de la prévention et de la prise en charge du VIH et de la TB</p>
			<p>30 inspecteurs du travail venant des 14 régions du Sénégal, sont formés sur l'utilisation de la fiche technique annexe du Guide méthodologique de l'inspection du travail sur le VIH et le sida en vue de mettre en place un véritable système d'inspection au niveau des entreprises formelles et informelles.</p>
Burundi/BDI901 Les capacités des mandants tripartites sont renforcées pour intensifier la lutte contre le VIH/SIDA sur le lieu de travail	1	1. Cinq lieux de travail qui ont été identifiés, et mettent en œuvre des programmes à travers leur plans d'action développés en Decembre 2013. Le suivi est assuré par l'Unité VIH du Ministère du Travail	Appui technique fourni dans l'élaboration des plans d'action/programmes des 5 secteurs : Education secondaire, Commerce informel, Energie et Mines, Commerce et Industrie et Personnel de l'enseignement supérieur
	2	Les partenaires du monde du travail du Burundi disposent d'une structure pérenne Comité Tripartite Elargi(CTE) mettent en œuvre les orientations et les outils techniques pour mobiliser les ressources et assurer le financement durable en matière du VIH dans le monde du travail	Appui technique pour le recrutement d'un consultant pour appuyer :i) les mandants tripartites dans l'élaboration d'une stratégie de base de financement durable en matière du VIH et sida dans le monde du travail en cours ; ii) l'opérationnalisation du Comité Tripartie Elargi(CTE) en charge du suivi de la mise en œuvre de la politique nationale
	3	La stratégie de mobilisation des ressources pour la mise en œuvre de la riposte au VIH et sida du monde du travail de Burundi a été validée le 25 novembre 2013. La Coalition nationale de riposte au VIH et sida en milieu du Travail constituera la base du processus de vers la mise en place de la Coalition Nationale	Appui technique fourni pour faciliter les échanges et la prise de décisions par les 30 participants mandants tripartites et les partenaires du monde du travail d'avancer

		PPP durable au Burundi. Sa mise en place sera initiée dès le début de l'année 2014	
Chad/TCD902 Les mandants tripartites élaborent un document de politique de lutte contre le VIH/SIDA en milieu du travail et mettent en œuvre des programmes significatifs	1	Des programmes de lutte contre le VIH en milieu de travail sont actuellement mis en œuvre dans cinq secteurs qui utilisent 6832 travailleurs (Construction : SOGEA/SATOM ; Agro-industrie : société sucrière du Tchad ; Agricole : COTONTCHAD en interaction avec 200 000 paysans ; Télécommunication qui dispose 2 millions d'abonnés et clients et Agro-minier : SONACIM	Le BIT a formé 30 points focaux de ces 5 secteurs sur la gestion simplifiée des programmes, la planification et le suivi /évaluation. Le BIT les a encadrés dans l'élaboration de leur plan d'action respectif. A la fin de la formation, ils ont été dotés des outils de planification, de suivi/évaluations ainsi que des outils sur la gestion financière des programmes. Un consultant a été recruté pour l'élaboration du plan sectoriel du secteur de la construction.
	2	Une Task Force tripartite élargie à la société civile, composée de 12 membres, mise en place et opérationnelle pour appuyer le Comité sectoriel VIH du Ministère de la Fonction Publique et du Travail dans la mise en œuvre de la politique nationale Les managers des entreprises et les travailleurs de 5 secteurs adhèrent au programme de dépistage 2014-2015	L'appui technique du BIT a permis de doter le Tchad de tous les outils techniques permettant d'assurer la relève et le suivi de la mise en œuvre du plan opérationnel de la politique nationale VIH en milieu du travail, à travers la formation de 10 membres de l'équipe du Task Force de l'unité sectorielle VIH au Ministère du Travail et des 12 membres de la Task Force sur la planification, le suivi et l'évaluation Appui technique du BIT pour mobiliser les managers des entreprises et 300 travailleurs de 5 secteurs sur le dépistage volontaire 2014-2015
Democratic Republic of the Congo/COD202 La prévention du VIH/SIDA sur les lieux de travail est renforcée par la politique nationale tripartite concernant le VIH/SIDA	1	Cinq secteurs ont été identifiés et leur programmes ont été élaborés en décembre 2013 à travers des plans d'action	Appui technique du BIT apporté pour renforcer les capacités des 45 points focaux sur la planification, le suivi et l'évaluation et l'élaboration des plans d'action du secteur minier(Gécamines) et du secteur Transport

			(Routier Fluvial, Ferroviaire et Portuaire)
	2	<p>L'équipe technique en charge du suivi de la mise en œuvre de la politique nationale de lutte contre le VIH/ SIDA en milieu du travail (adoptée en 2011) - comprenant le Comité sectoriel de Lutte contre le Sida au Ministère du Travail, Programme multisectoriel de lutte contre le VIH/SIDA et Comité inter-entreprises de lutte contre le VIH/SIDA en milieu du travail (CIELS) - dispose des compétences nécessaires lui permettant de:</p> <ul style="list-style-type: none"> -assurer le suivi de la mise en œuvre de la politique nationale et de développer les programmes VIH sur les lieux de travail ; -comprendre les enjeux et le défis de la riposte au VIH et au sida du monde du travail ; -Contribuer à la campagne Zéro sur les lieux de travail. 	<p>--Le BIT a fourni de l'appui technique pour la formation des membres du Comité en charge du VIH en milieu du travail au Ministère de l'Emploi, du Travail sur la planification, le reporting et l'évaluation (avril et mai 2013);</p> <p>-Le BIT a fourni de l'appui technique au Comité inter-entreprises de lutte contre le VIH/SIDA en milieu du travail (CIELS) pour la réalisation d'une étude sur le mode de financement durable de la réponse nationale au VIH et le Sida au sein des entreprises.</p>

Lesotho/LSO127 Government and Social Partners develop and adopt effective HIV/AIDS and TB workplace programmes.	1	HIV and AIDS workplace programmes have been developed and launched in December 2013 at 5 workplaces namely: for the Ministry of Labour, Lesotho Electricity Company and 3 labour federations: Lesotho Congress of Democratic Unions, Lesotho Trade Unions Congress and the Congress of Lesotho Trade Unions.	ILO facilitated partnerships with institutions/organizations identified for the development of workplace programmes. – provided financial, and coordination, technical support towards workshops held for the development of workplace programmes
	2	- For each of the five workplace programmes HIV and AIDS workplace bipartite committees between the employers and the workers were established to coordinate and monitor the implementation of their respective workplace programmes. The workplace programmes were developed in line with the ILO Recommendation 200, including the principles enshrined in the Recommendation and the ILO Code of Practice on HIV/AIDS in the workplace.	ILO provided technical support towards on the establishment of enterprise level bipartite HIV/AIDS Committees and training on their roles in ensuring implementation and monitoring of the effectiveness of the delivery of workplace programmes. ILO has facilitated a dialogue to discuss scaling up of the workplace programmes and the revival of the Lesotho Business and Labour Coalition on HIV and AIDS. This will provide a coordinating forum for the implementation of workplace interventions on HIV/AIDS.
Malawi/MWI151 Enhanced efforts to mitigate the impacts of HIV & AIDS and TB in informal and formal workplaces made	1	-A total of 10 workplace policies and programmes have been developed and launched for railways and airlines, institutions. -Over 15,000 beneficiaries reached with HIV messages. -Over 700 beneficiaries trained in business development skills.	The ILO has facilitated training and advocacy on the design of HIV & AIDS workplace policies and programmes in Malawi using the 10 key principles of the ILO code of practice on HIV/AIDS and the world of work as well as Recommendation 200 in both the formal and informal economy. -The ILO, through the Sida Funded Project on Reducing Vulnerability of HIV & AIDS in the Transport Corridors has provided support for an Innovation Fund in May 2013

			<ul style="list-style-type: none"> - Business Development skills training has been provided to selected beneficiaries to be able to start economic activities and access HIV services. <p>The ILO also provided technical support in mainstreaming HIV and AIDS in all the informal social economy organizations participating in the project.</p> <p>-Leaders of social economy organizations were trained in HIV programme development and management.</p>
	2	The process of development of workplace programmes has included consultations of the constituents and the sectoral stakeholders through a national steering committee established to ensure ownership in the implementation of the HIV interventions	The ILO has facilitated the development of an implementation strategy for the National HIV/AIDS workplace policy
Mozambique/MOZ152 HIV and AIDS workplace policies and programmes for identified sectors e.g transport and cooperatives being implemented	1	The Government has adopted the ILO's blue print for HIV & AIDS workplace programme based on Recommendation 200. 3 companies from transport sector and 50 small and medium enterprises have developed and adopted HIV and AIDS Policies and Programs and 4 Informal sector organizations in Maputo, Milange and Beira Corridor have increased knowledge in implementing HIV and AIDS programs in the informal markets through ASSOTSI and Associacao Mukhero (both informal sector associations)	The ILO supported the development and now the implementation of HIV and AIDS programs by providing technical and financial assistance to trainings, design and implementation of the workplace programs for the world of work partners including ECOSIDA, OTM (union), LEDA (Local Economic Development Agency) Sofala, UGC (Uniao General des Cooperativas) and ASSOTSI. The ILO also provided capacity building to world of work stakeholders to respond to HIV and AIDS in their workplace and organized a training for 35 ToT for development of workplace policies; training on Decent Work and HIV&AIDS for 45 officials from Government, producers association and cotton companies as part of the partnership

			<p>built with the Cotton Institute; 75 parliament members and 50 members of the trade union were trained on R200 and HIV/AIDS; 200 people from Government institutions, Trade Unions, SME managers and NGO were trained on Mainstreaming TB issues in workplace programs;</p> <p>Furthermore, ILO provided capacity to companies, SME and informal sector on the HIV monitoring and evaluation to increase quality reporting to National AIDS Council. 30 focal points trained to use the M&E tools.</p>
	2	The HIV and AIDS workplace programmes have been developed through bipartite consultation.	<p>ILO, in collaboration with ECOSIDA (Business Coalition) and NAC, supported tripartite consultations in Maputo city (40 participants), Matola (35 participants), Tete (32 participants) and Nampula (55 participants) provinces to ensure that the workplaces programmes follow a participatory approach.</p> <p>The meetings resulted in the signing of MoUs between the enterprises and ECOSIDA as acceptance of partnership for development of HIV and AIDS Programs (80 SME signed).</p>
Namibia/NAM151 Government and Social Partners develop and implement effective HIV/AIDS and TB workplace programmes	1	Five HIV and AIDS Workplace programmes have been developed and launched in December 2013 for the following organizations/institutions: The Ministry of Labour and Social Welfare (MLSW); and Trade Union Congress of Namibia (TUCNA); Metal and Allied Namibian Workers Union (MANWU), Construction Industries Federation (CIF), and the Namibian Employers Federation (NEF).	<p>The ILO facilitated partnerships with institutions/ organizations identified for the development of workplace programmes.</p> <p>The ILO provided coordination support towards workshops held for the development of workplace programmes</p> <p>The ILO facilitated the workshops held and capacitated employees and members of</p>

			workers' organizations on the provisions of Recommendation 200, the National Strategic Framework.
	2	For each of the five workplace programmes, a HIV/AIDS workplace committee was established to coordinate and monitor the implementation of their respective workplace programme. The five workplace programmes were developed in line with the ILO Recommendation 200, including the principles enshrined in the Recommendation and the ILO Code of Practice on HIV/AIDS and the World of Work. The programmes seek to address issues pertaining to non-discrimination, gender equality, healthy work environment, social dialogue HIV counselling and testing, prevention, treatment care and support.	The ILO provided facilitation support in the establishment of bipartite HIV/AIDS Committees that were established in the institutions identified. The ILO also provided capacity building support to the established committees in terms of their role in ensuring implementation and the monitoring of the workplace programmes.
South Africa/ZAF176 Government and Social Partners develop and implement effective HIV/AIDS and TB workplace programmes	1	HIV/AIDS Workplace programmes have been developed and launched in December 2013 in the following five organizations/institutions: The National Department of Labour, The National Health Laboratory Services (NHS), the Health and Other Service Personnel Trade Union of South Africa (HOSPERSA), the Federation of Democratic Unions of South Africa (FEDUSA), and a Joint Labour Programme on HIV and AIDS for Organized Labour including COSATU, NACTU, FEDUSA, and independent unions. The Ministry of Labour Technical Assistance Guidelines were used to guide the development & implementation of	The ILO facilitated partnerships with institutions/ organizations identified for the development of workplace programmes. The ILO provided support towards workshops held for the development of workplace programmes. During the workshops d, the ILO capacitated employers/employees and workers' orgs on the provisions of Recommendation 200, the National Strategic Plan, the revised Code of Good Practice on HIV/AIDS & its Technical Guidelines. Number of participants at the workshops was as follows: HOSPERSA: 31 officials (58% female), FEDUSA: 12 union representatives (50% female); Department of Labour: 50 officials (60%)

		<p>HIV/AIDS programmes –</p> <p>Under the Sida-funded programme, workplace programmes were developed for 4 agricultural cooperatives and for 1 farm.</p>	<p>female); NHLS: 24 officials (75% female); from the Joint Labour Programme on HIV/AIDS for Organized Labour: 26 affiliate members.</p> <p>As result of the capacity built, ILO has also engaged in the roll out of the VCT@Work initiative in South Africa, through the financial support of the Norwegian government, which resulted in 10,000 workers tested at the end of December 2013</p> <p>The ILO made technical inputs into the Technical Guidelines document for implementation of HIV/AIDS programmes. -ILO provided technical and facilitation support for development of workplace programmes for rural based cooperatives and farms.</p>
2		<p>For each of the five workplace programmes that were developed, bipartite HIV/AIDS workplace committee were established to coordinate and monitor the implementation of their respective workplace programmes. All five workplace programmes were developed in line with the ILO Recommendation 200, including the principles enshrined in the Recommendation and the ILO Code of Practice on HIV/AIDS and the World of Work.</p> <p>Within the Sida-funded programme one national and 3 local Corridor Economic Empowerment & HIV/STI/TB Technical</p>	<p>- The ILO provided facilitation support in the establishment of bipartite HIV/AIDS Committees that were established in institutions identified. The ILO also provided capacity support to the established committees in terms of their roles in ensuring implementation and the monitoring of the workplace programmes. ILO facilitated establishment of a National and local Corridor Economic Empowerment & HIV/STI/TB Technical Committees. Facilitated their training to monitor support implementation of workplace program</p>

		Committees have been established to monitor implementation of workplace programmes in the transport corridor & selected communities. All workplace programmes were developed in line with the ILO Recommendation 200.	
Swaziland/SWZ154 Government and Social Partners develop and implement effective HIV/AIDS and TB workplace programmes	1	There are six wellness, HIV and AIDS and TB workplace programmes that have been developed and launched in December 2013 in line with the ILO Recommendation No. 200. The programmes were developed in the following institutions: Ministry of Labour and Social Security, Royal Swaziland Sugar Corporation, Nedbank Swaziland, MTN Swaziland, Swaziland Revenue Authority, Giant Clothing company.	The ILO technical support in the development of the bipartite Wellness HIV and TB Workplace Policies and Programmes in all the identified enterprises. ILO staff and consultants assisted in the bipartite committees to develop the policies and programmes.
	2	The Ministry of Labour and Social security has developed a bipartite wellness, HIV/AIDS and TB workplace policy, in consultation the National Public Servants and Allied Workers (NAPSAW). Subsequent to the Workplace Policy, the Ministry developed a wellness, HIV and TB Workplace Programme through the same bipartite consultation process. The Workplace Programme is being implemented in collaboration with the Public Service HIV and AIDS Coordinating Council (PSHACC). Activities are coordinated, implemented and reported through the National Steering Committee on Employee Health and Wellness (NSC-EW) established in the last biennium.	The ILO provided facilitation support in the establishment of bipartite HIV/AIDS Committees that were established in institutions identified. The ILO also provided capacity support to the established committees in terms of their role in ensuring implementation and the monitoring of the workplace programmes. The programmes seek to address issues pertaining to non-discrimination, gender equality, healthy work environment, social dialogue HIV counselling and testing, prevention, treatment care and support.
Zambia/ZMB152 HIV and AIDS workplace programmes developed in selected sectors	1	HIV/AIDS workplace programmes have been developed and launched in 5 workplaces in the following sectors, Education, Agriculture,	The ILO has contributed to the development and implementation of sectoral workplace programmes (5 workplace programmes under

		<p>Informal economy and the Transport sector.</p> <p>As a result, HIV testing and counselling was provided outside the workshop venues for participants: 22 (9 males and 13 females) people were counselled & tested. A second event, covering 6000 people, is being planned in early November 2013.</p> <p>In the Kashima and York Farm the enterprise policies were revised and the peer education programmes and HIV committees revived</p> <p>In the informal economy, informal workers from seven subsectors were trained on policy development and formulated new policies. All seven sub-sectors were trained on developing their workplace programmes and on implementing them. Each subsector developed their action plan.</p> <p>In the education sector, a strategy for the Ministry of Education, Science, Vocational Training and Early Education has been developed and HIV&AIDS workplace implementation Guidelines have been developed</p>	<p>development).</p> <p>Other ILO contributions through technical and financial support include:</p> <p>75 participants (by end of 2012) drawn from constituents; 39 participants (2013) drawn from the formal sector (education and security [Police]) and 42 participants drawn from the informal sector (agriculture and NGOs) were equipped with knowledge and skills of developing work place programs and activities in line with the ILO Code of Practice for the world of work and (R2001) and R200 (2010). Other support includes: 323 informal economy workers (231 women and 82 men) were equipped with knowledge and skills of HIV prevention and mitigation in work places.</p>
	2	<p>The Sectoral HIV/AIDS workplace programmes have been developed under the guidance of a bipartite/tripartite HIV/AIDS workplace committee. In addition, 9 work place committees were established in 9 work places (2 in the formal and 7 in the informal</p>	<p>The ILO supported the convening of the various workplace committees to develop the sector specific workplace programmes and during the committee meetings. It provided technical assistance by guiding the committee on how to ensure synergies with the</p>

		sectors)	<p>overarching National HIV/AIDS Workplace policy as well as ensuring its compliance with ILS. The ILO advised on how components of the workplace programmes could be translated into implementable activities. ILO Zambia provided technical assistance, finance, training, consultants, mentoring and follow-up</p> <p>As part of the VCT@Work initiative funded through the Norwegian government, ILO supported an event to reach 6,000 women and men with VCT, organized in November 2013. Europe

<p>Ukraine/UKR151 ILO constituents develop and implement programmes on HIV/AIDS at selected workplaces</p>	<p>1</p> <p>Seven workplace programmes were developed in November 2013 on the basis of the National Tripartite Cooperation Strategy on HIV/AIDS and the World of Work which was adopted by National Tripartite Socio-Economic Council of Ukraine. Seven workplaces, located in the Cherkassy and Kyiv regions, have adopted and implemented HIV workplace programmes. The sectors covered are: health, electricity, education and confectionery</p> <p>The programmes cover all workers employed at these enterprises.</p>	<p>The ILO provided the following contributions to the achievement of the result:</p> <ul style="list-style-type: none"> - consultancy support, including on the development of a gender module to be incorporated in training activities for enterprises and also on the development of sample HIV workplace programme which served as a basis for enterprises? workplace programmes; - a survey among enterprises in Cherkassy region, conducted in September-November 2013 aimed at identifying enterprises for development, adoption and implementation of HIV workplace programmes; - facilitation of awareness-raising and training activities (eight) - in total) conducted between December and July 2013.
	<p>2</p> <p>The programmes were developed jointly by representatives of managers of enterprises and trade unions. The pilot enterprises do not have special committees for HIV; however, responsible persons/bodies are identified in the action plans which are included in the adopted Programmes. Those are mainly health and/or occupational safety and health units.</p> <p>All Programmes are based on the principles of ILO Recommendation 200 and ILO Code of Practice on HIV/AIDS and the World of Work.</p>	<p>The ILO organized:</p> <ul style="list-style-type: none"> - Consultative support to selected enterprises; - Awareness-raising and training activities that include a capacity-building workshop for territorial tripartite socio-economic councils on implementation of the National Tripartite Cooperation Strategy on HIV and AIDS in the World of Work; a sensitization workshop for selected enterprises in Cherkassy region; three round tables/consultations with selected enterprises to discuss sample HIV workplace

		<p>As a result of ILO support and active involvement and commitment of partners at the regional level the Cherkassy region has become a pioneer in setting up a network of enterprises having adopted HIV workplace programmes and covering more than 3,500 workers with awareness-raising activities.</p>	<p>programmes and adapt it to their needs; a series of training-of-trainers activities for enterprises which already adopted the workplace programmes and for those which are willing to join. In total more than 100 persons participated in these activities;</p> <ul style="list-style-type: none"> - creation, design and printing of four booklets about HIV and ways of transmission; human rights in the context of HIV; voluntary counselling and testing and occupational safety and health aspect of HIV and three posters on HIV to be placed in ?information corners? at each of seven enterprises. - organization of the final review meeting with the participation of all pilot enterprises participating in the programme implementation to share experience and challenges as well as identify good practices.
Russian Federation/RUS131 Tripartite constituents develop and implement HIV/AIDS policies and programmes in the workplace	1	12 large workplaces in 6 territories have developed and launched workplace programmes on HIV based on 10 key principles of the ILO Code of practice on HIV/AIDS and the world of work and R200 in December 2013.	The ILO has supported the pilot TU training centers in 6 pilot territories in including the course on HIV/AIDS at the workplace into its curricular for TU leaders integrating it in branch territorial TU training centers in Russia. The ILO course on HIV and AIDS and the world of work: enhance the workplace responses in RF provided for national and sectoral HIV/AIDS FPs (sectors: agriculture, health, mining, oil and gaz, railroad and sea transport), Nov12. Representatives of 43 AIDS Centers (ACs) participated in the ILO session "Improving efficiency of HIV awareness programmes at the workplaces" at the National AIDS Conference (Suzdal, March13). Management of ACs from Chelyabinsk,

			Ekaterinburg, Lipetsk, Samara territories and Rep. of Tatarstan got in-depth insight on addressing HIV at the workplaces (May-June13). Head of prevention section of Kaluga AC attended the ILO training on HIV as a workplace issue (Dec 12). Dissemination of materials on HIV/AIDS prevention and non-discrimination.
	2	As a result of these programmes and the bipartite consultation process, 7 workplaces have included provisions on HIV/AIDS programmes into their collective agreements.	The ILO technical support and advocacy work has resulted in a strong response from the Lipetsk territory.
Tajikistan/TJK152 Tripartite constituents' capacity to implement HIV/AIDS programmes in the workplace is increased	1	5 Workplace policies and programmes have been developed and launched in agriculture, transport and railways, textile, construction and food industry, following the adoption of the first National Tripartite HIV and AIDS Workplace Strategy Paper based on the key principles of ILO Recommendation 200 and endorsed by the tripartite constituents.	ILO has provided technical and financial support in conducting the High-Level Meeting with key Ministries and Parliamentarians in promotion and effective implementation of the ILO Recommendation 200. ILO has provided technical support to the development of the National Tripartite HIV and AIDS Workplace Strategy Paper, its printing and dissemination in 3 languages. ILO has supported a high-level national workshop which contributed to build consensus on the Tripartite HIV Workplace Action Plan that is the basis for the development of the workplace programmes in Tajikistan
	2	The first HIV, AIDS and Tuberculosis Tripartite-plus Workplace Plan of Action for 2013-2016 focusing on key economic sectors was developed and approved.	ILO has supported the organization of a "tripartite plus" discussion of the draft Workplace Plan of Action. ILO has built the capacity of stakeholders in

	<p>In the agriculture sector, a bipartite process led to the signature of a MoU to address stigma and discrimination;</p> <p>In transport and railways sector 135 workers were targeted with prevention and care messages;</p> <ul style="list-style-type: none"> - In the textile, construction and food sectors HIV workplace enterprise level activities have reached 90 workers in 3 regions 	<p>the agrarian, transport and railways, textile and construction sectors including workshops for 31 agrarian leaders-employers in 2 regions.</p> <p>ILO, through the Norwegian government funds, has supported the launch of the campaign on Getting to Zero at the Workplace covering 100 railways and transport workers, followed by capacity building for 35 workers in August 2013.</p>

Americas			
Jamaica/JAM901 Tripartite constituents in Jamaica have reviewed and revised the national workplace policy on HIV/AIDS	1	<p>Eight enterprises from the food and beverage industry have established workplace HIV programmes and signed on to a proclamation on HIV/AIDS and the world of work.</p> <p>Focal points in each of the participating enterprises in the sector were trained to ensure sustainability of the HIV workplace programmes</p>	With the support of Norway Funds, the ILO provided technical advisory support to the Ministry of Labour (through workshops and seminars) to develop the workplace programmes and to train the focal points.
	2	The workplace programmes and the Proclamation integrate the ten key principles of the ILO Code of Practice on HIV/AIDS.	With the support of Norway Funds, the ILO provided technical advisory support to the Ministry of Labour (through workshops and seminars) to develop the workplace programmes and to train the focal points.
Costa Rica/CRI128 Los constituyentes formulan políticas en VIH SIDA en el mundo del trabajo para implementar la Recomendación 200	1	El Ministerio de Trabajo y Seguridad Social desarrolló en setiembre de 2013 una política interna sobre el VIH y el sida aplicable a sus 6 lugares de trabajo en los diferentes departamentos del país, junto con un programa de implementación. Se capacitaron puntos focales en cada lugar de trabajo para asegurar su aplicación eficaz. El programa benefició a 680 trabajadores y trabajadoras en el Ministerio.	Con apoyo de un programa de cooperación técnica financiado por Noruega, la OIT prestó asesoría para el desarrollo de una metodología para la elaboración de la política interna del Ministerio de Trabajo y Seguridad Social y su programa de implementación en sus 6 lugares de trabajo en el país.
	2	El programa para la implementación de la política en el lugar de trabajo fue desarrollado por un comité bipartito que contó con representación de la organización de trabajadores del Ministerio de Trabajo, autoridades del Ministerio y con representación de personas viviendo con VIH.	La OIT brindó capacitación al comité responsable para la elaboración de la política interna, así como a los respectivos puntos focales a través de talleres de formación en los principios claves de la recomendación 200 y el repertorio de recomendaciones prácticas). Además, la OIT facilitó el diálogo social

		<p>El programa incorporó los diez principios claves del Repertorio de Recomendaciones Prácticas de la OIT. Además, el programa integró medidas específicas para promover la no discriminación, la equidad de género y el respeto de la confidencialidad de los trabajadores en los lugares de trabajo del Ministerio.</p>	(talleres de consulta) para la redacción del documento. La OIT revisó el documento y aportó comentarios técnicos para asegurar su compatibilidad con la recomendación 200 y el repertorio de recomendaciones prácticas.
Honduras/HND128 Los constituyentes, con el apoyo de la OIT, desarrollan programas sobre VIH y SIDA en los lugares de trabajo.	1	<p>Durante el segundo semestre de 2013, el sector maquila (textil y confección) elaboró y lanzó un programa sobre VIH y sida en 5 lugares de trabajo del sector de la maquila, de acuerdo a lo estipulado en la Política nacional sobre VIH y sida en el mundo del Trabajo.</p>	La OIT prestó asesoría para el desarrollo de una metodología para la elaboración de los programas en el lugar de trabajo. La OIT capacitó a respectivos puntos focales (talleres de formación) para la aplicación de los programas y facilitó el diálogo social (talleres de consulta tripartita) para la redacción del documento, incluyendo la perspectiva de personas viviendo con el VIH en el sector.
	2	<p>El programa tripartito elaborado por el sector maquila incorpora los principios del Repertorio de Recomendación Prácticas y de la Recomendación No 200, expresados en la Política Nacional sobre el VIH y el sida. El programa lanzado en las empresas fue diseñado por los comités bipartitos de salud y seguridad en el trabajo, junto con el Ministerio de Trabajo.</p>	La OIT revisó el documento guía para la implementación de los programas en el sector, aportando comentarios técnicos para asegurar la promoción de los principios claves del repertorio de buenas prácticas en el marco de los programas en las empresas del sector.
Brazil/BRA106 Mandantes tripartitos fortalecidos para dar efecto a la Recomendación número 200, integrando las intervenciones en el lugar de trabajo en las estrategias nacionales sobre el VIH/SIDA.	1	<p>Durante el primer semestre de 2013, un comité compuesto por representantes del Gobierno, centrales sindicales, empresas privadas, personas viviendo con VIH y miembros de la comunidad LGBT se reunieron y dieron insumos para el desarrollo de un programa sobre el VIH y el sida y la prevención de la homo-lesbo-transfobia al</p>	a) La OIT prestó asesoría técnica para el desarrollo de un programa de trabajo que incorpora la prevención de la homo-lesbo-transfobia un elemento importante en la prevención del VIH y la erradicación de estigma y discriminación. Los materiales desarrollados para este programa integran los 10 principios claves del Repertorio de

		nivel de las empresas privadas en Brasil. Este programa se lanzó en 5 empresas privadas en Brasil durante el segundo semestre de 2013.	recomendaciones prácticas y de la Recomendación núm. 200. Durante el segundo semestre de 2013, la OIT capacitó a puntos focales de 5 empresas privadas en Brasil, y se llevaron a cabo actividades de prevención del VIH y erradicación de la homofobia-transfobia de una forma holística.
	2	El programa - que incluye materiales didácticos y ejemplos de buenas prácticas de empresas y de organizaciones de trabajadores -fue consensuado por representantes del Gobierno, centrales sindicales, empresas privadas, personas viviendo con VIH y miembros de la comunidad LGBT a través de un proceso participativo..	Durante el primer semestre de 2013, la OIT facilitó el diálogo entre el mundo de trabajo y la sociedad civil (organizaciones de personas viviendo con VIH y representantes de la comunidad LGBT) para desarrollar materiales didácticos. A la vez, ayudó a desarrollar una estrategia para las empresas que combinaría la prevención del VIH y la erradicación del estigma y la discriminación que sea por VIH o por orientación sexual o identidad de género. Durante el segundo semestre de 2013, y trabajando de una forma muy cercana con un consejo empresarial de VIH y centrales sindicales, la OIT lanzó el programa contra la discriminación en el local de trabajo y los difundió en 5 empresas privadas.
Chile/CHL107 Mandantes tripartitos habrán aplicado las Directrices sobre VIH y el sector transporte, fomentando acción al nivel de la empresa, y habrán iniciado trabajo con sectores relacionados, como el sector minero	1	Por primera vez, fueron aplicadas las Directrices Tripartitas nacionales sobre VIH y el sector transporte, creando un programa sobre VIH y sida en lugares de trabajo del sector transporte. Tomando las Directrices como base, los actores tripartitos consensuaron el programa durante el primer semestre de 2013, que fue lanzado en 5 empresas de transporte. También, las Directrices fueron usadas por el sector minero de la región de Tarapacá para el diseño de su propio programa de trabajo	La OIT prestó asesoría para el desarrollo del programa de trabajo, incluyendo una declaración de adhesión a los valores de las Directrices, una metodología para medir los avances del programa y un "check-list" para verificar con qué componentes de las Directrices las empresas han cumplido. (Las Directrices reflejan los 10 principios básicos del Repertorio y la Recomendación Núm. 200). La OIT facilitó el diálogo social entre los mandantes tripartitos para desarrollar estos

		<p>sobre VIH. Ese programa se enfoca en la capacitación de los miembros de comités paritarios (bipartitos) de seguridad y salud de minas en la región de Tarapacá, durante el segundo semestre del 2013. (Consulta con los comités bipartitos ocurrieron durante el 2012.)</p>	<p>materiales y consensuar el producto final. La OIT organizó una presentación pública ante la prensa para la firma de la adherencia a las Directrices.</p> <p>Durante el primer semestre del 2013, la OIT empezó a capacitar a puntos focales (talleres de formación) de las empresas participantes para la aplicación de este programa.</p> <p>Para el sector minero, la OIT redactó la primera versión de su estudio sobre vulnerabilidades al VIH de dos minerías importantes de Tarapacá, durante el primer semestre del 2013.</p>
	2	<p>Un comité de representantes sindicales del sector transporte, representantes de los empleadores y del Ministerio de Trabajo y Previsión Social participaron en la redacción del programa sobre VIH/SIDA y lo aprobaron. Representantes de las 5 empresas participantes del sector transporte firmaron un acuerdo público, adhirieron a los valores de las Directrices Nacionales (y por ende la Recomendación Núm. 200 y los 10 principios del Repertorio), que sirve de marco de implementación para el programa.</p>	<p>La OIT promovió el dialogo social durante este proceso, trabajando tanto al nivel nacional (con federaciones de trabajadores y empleadores, el Ministerio de Transporte y el Ministerio de Trabajo y Previsión Social) y a nivel de las 5 empresas de transporte.</p>
<p>Paraguay/PRY901</p> <p>Mandantes tripartitos en Paraguay habrán implementado actividades de capacitación sobre VIH/SIDA en el sector transporte, enfocándose en la no-discriminación y el acceso universal de los transportistas al nivel de las empresas.</p>	1	<p>Durante el primer semestre de 2013, el Ministerio de Justicia y Trabajo publicó la Resolución núm. 437 Por el cual se establecen las directrices para fomentar acciones sobre el VIH y el sida al nivel de las empresas del sector transporte terrestre en el Paraguay. Esta política consensuada por los mandantes tripartitos - sirvió al sector transporte como una base para formular y lanzar un programa</p>	<p>La OIT prestó asesoría para el desarrollo de un programa de trabajo: incluye una declaración de adhesión a los valores de la Resolución, una metodología para medir los avances del programa y un "check-list" para verificar que las Directrices están siendo aplicadas por las empresas participantes. (Cabe señalar que la Resolución refleja los 10 principios básicos del Repertorio y la</p>

		<p>sobre VIH y sida en 5 lugares de trabajo del sector transporte.</p> <p>La Resolución incorpora los principios claves de la Recomendación núm. 200.</p>	<p>Recomendación núm. 200).</p> <p>Durante el primer semestre de 2013, la OIT capacitó a puntos focales de 5 empresas de transporte, entrenándoles en la prevención de VIH y adecuando por esta vía los materiales a las necesidades de las empresas.</p>
	2	<p>El texto de la Resolución había sido consensuado previamente por un comité de representantes sindicales y representantes de los empleadores del sector transporte, y el Vice-Ministerio de Trabajo. Este documento da el marco para la acción en las 5 empresas y avala los valores de la Recomendación núm. 200 y los 10 principios del Repertorio.</p>	<p>Durante el segundo semestre de 2013, para asegurar la inclusión de una visión empresarial, la OIT colaboró con una Organización de Empleadores del sector transporte para llevar a cabo los programas de VIH en 5 empresas de transporte. Dentro del equipo de la Organización de Empleadores, se incorporaron formadores pares de choferes de camiones de larga distancia. De esta manera, el desarrollo y la puesta en práctica de los programas fueron bipartitos, apoyándose en un marco tripartito.</p>
