

Appendix I

Guidance from the Employers' and Workers' groups of the Governing Body on the Roadmap for the programme of action on decent work in global supply chains

([GB.329/INS/3/2](#) and [GB.328/INS/5/1\(Add.1\)](#))

Guidance points (summary)

1. Consolidate the current programme of action (with its activity matrix) and the roadmap (with its workplan and theory of change document) into one clear and logical document, while:
 - (a) ensuring that the information in the consolidated document is fully consistent with and in line with the tripartite consensus reached on the conclusions concerning decent work in global supply chains;
 - (b) following an approach to “global supply chains” consistent with the *UN Guiding Principles on Business and Human Rights*;
 - (c) including hitherto missing or fragmented information into the consolidated document, such as the “baseline” review (requested at the 328th Session of the Governing Body), and the dates and titles of the three meetings of experts on global supply chains.
2. Adapt the following points in the various documents to reflect the consensus:
 - (a) revise point 2.2 in the activity matrix, page 9 (roadmap, page 11) to make reference to “including (delete: *when requested*) advice on innovative practices, for instance, with regard to dealing with respective responsibilities down the chain” instead of “liability principles”. Delete the rest.
 - (b) revise point 3.2 of the activity matrix, page 10 (roadmap, page 12) to read “In support of possible *joint* requests related to IFAs a dedicated cross-office team *can* be established in order to address such requests”;
 - (c) in point 4.4 of the activity matrix, page 11 (roadmap, page 14), insert at the end of the sentence “in the broader framework of strengthening the capacity of all relevant stakeholders including national labour market institutions”.
 - (d) in point 5.4 of the activity matrix, page 11 (Appendix II (theory of change) page 18): update language on the MNE Declaration to read “Put effect to the revised MNE Declaration, adopted at the 329th Session (March 2017), and its principles and operational tools”.
 - (e) in point 6.4 of the activity matrix, page 12 (roadmap, page 15). Delete the text on “design and operations of emergency compensation funds” and insert after “and to foster enterprises’ participation in the development and operations of national social protection systems including floors”... and “worker compensation programmes”.
3. Language issues to be addressed:
 - (a) In points 6.5 and 6.6 of the activity matrix, page 12 (roadmap, page 8), correct “apply” and “comply with” into “respect”.

- (b) In point 1.1 of the activity matrix, page 9 (roadmap, pages 8 and 9): correct the following text: “to promote ratification and effective implementation *of the core Conventions and respect for* the fundamental principles and rights at work ...”.
