Implement the ILO Recommendation on
HIV and AIDS (No. 200)

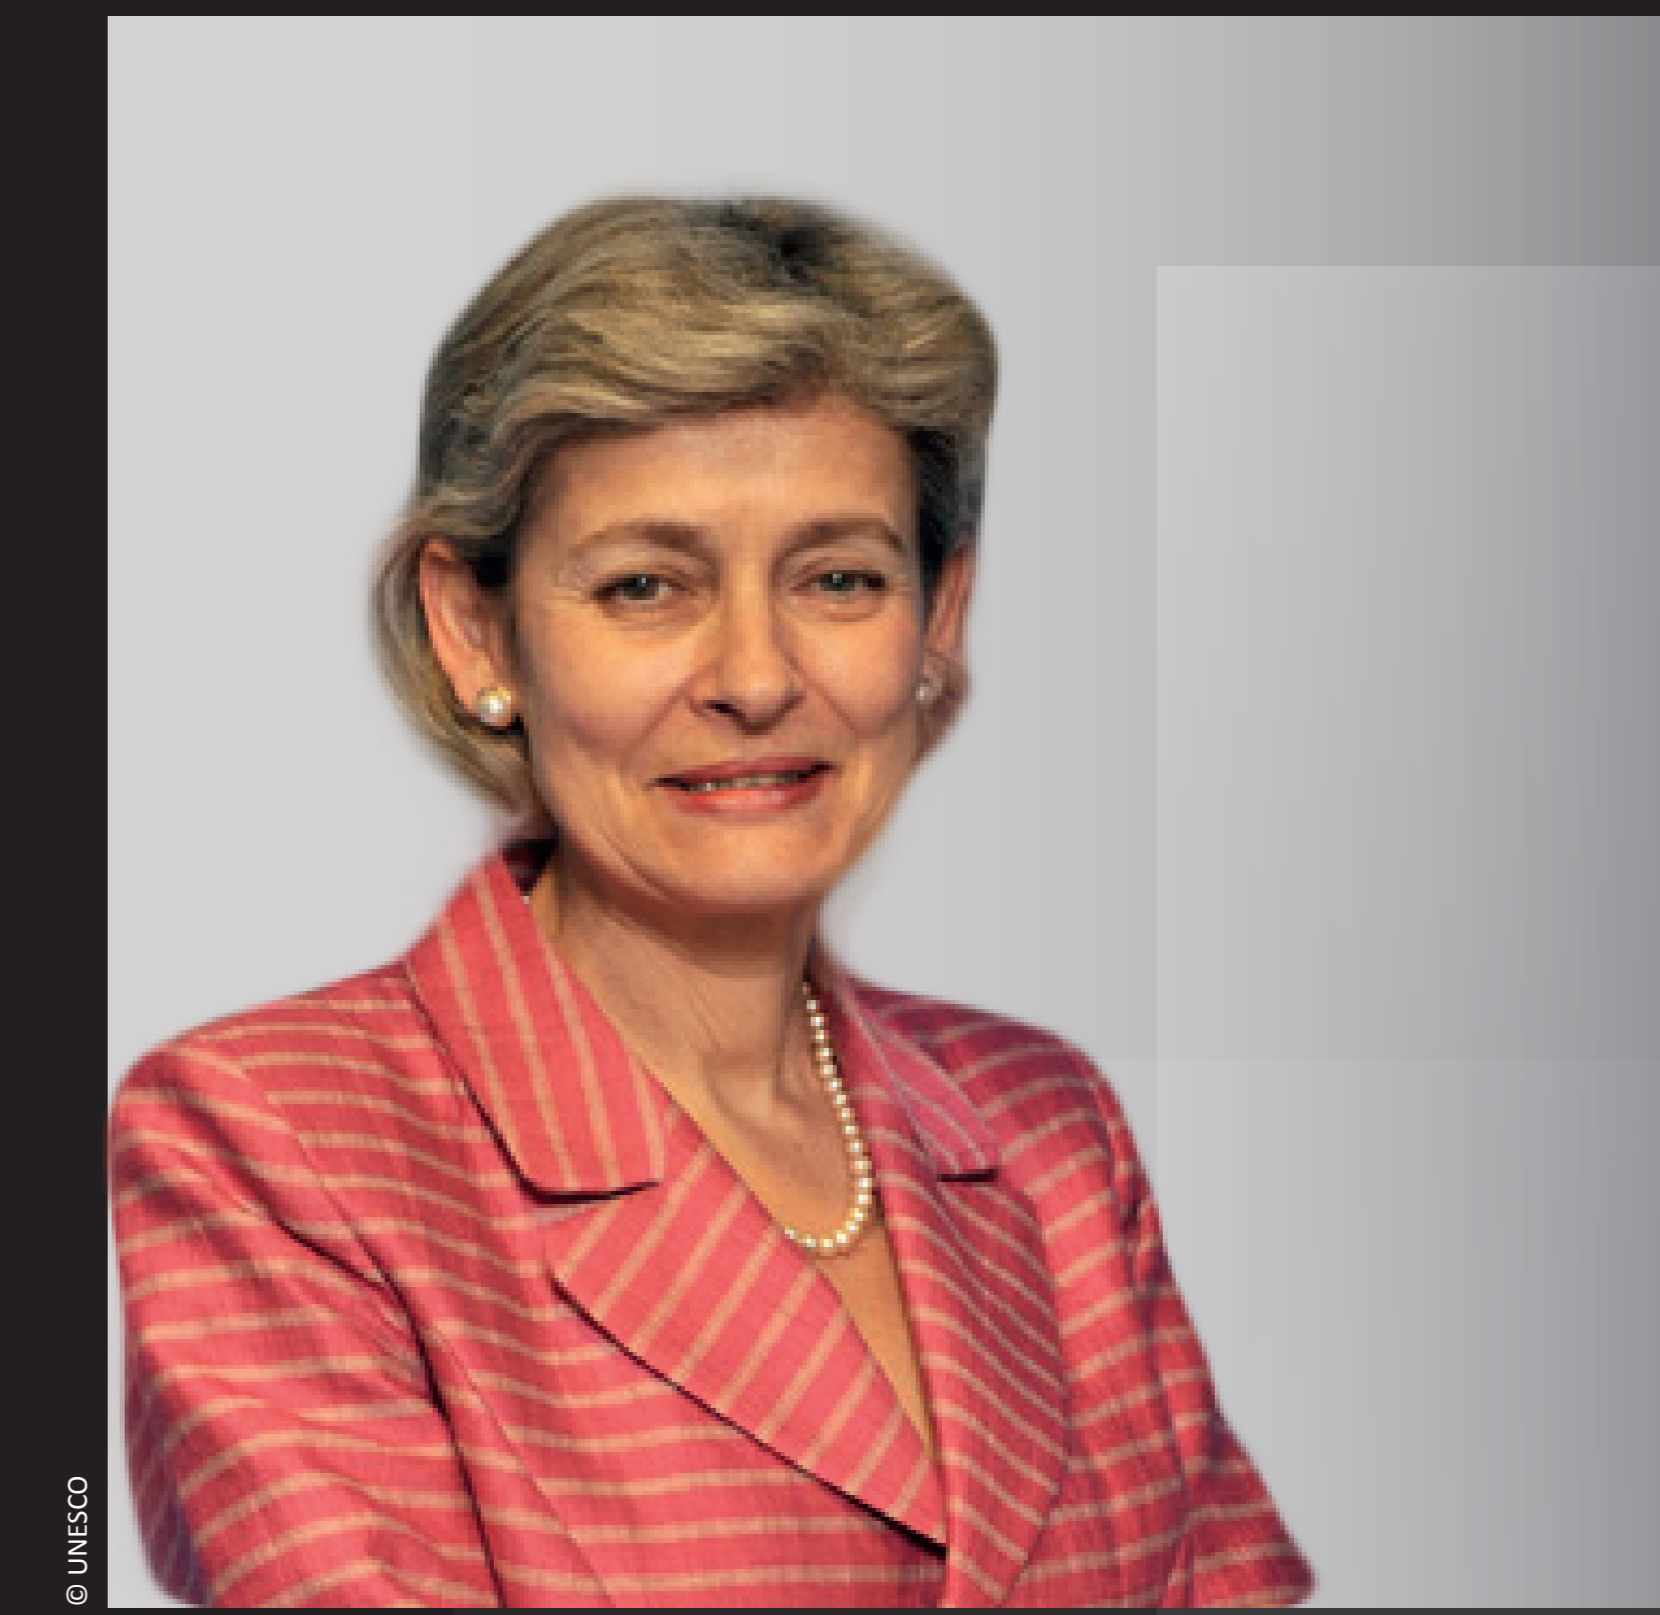

International
Labour
Organization

United Nations
Educational, Scientific and
Cultural Organization

“ The starting point is for teachers and all **education personnel** to work in supportive environments that offer access to vital information about HIV and AIDS and encourage **social dialogue**. Ultimately, it is students who will benefit when their teachers and the entire education personnel work in a nurturing and positive environment. **This is why workplace policies are an essential strategy for Getting to Zero.** ”

Irina Bokova
Director-General, United Nations Educational,
Scientific and Cultural Organization (UNESCO)
