Implement the ILO Recommendation on  
HIV and AIDS (No. 200)

“ African leaders are committed to accelerating the HIV response through country ownership and strategic investment approaches, including social and legal enablers. The world of work can be the entry point to reach out to workers and ensure universal access to HIV prevention, care and support. Our goal remains: Zero new HIV infection, Zero AIDS related deaths and Zero discrimination. ”

Nkosazana Dlamini-Zuma  
Chairperson of the African Union Commission  
(AUC)
