

Exhibition "The ILO's fight against child labour: Dreaming of Freedom"

“Tourism is a sector that promotes mutual understanding and the respect for human rights by building bridges between people. Regrettably, tourism infrastructure can also be misused for the nefarious purposes of human exploitation including child labour, trafficking or sexual exploitation. The World Tourism Organization (UNWTO) and ILO-IPEC work hand in hand to sensitize governments, the tourism industry and communities on how to eradicate hazardous labour and curb all forms of child exploitation related to tourism. Only by joining forces will we be able to end such immoral practices and give children their childhood back.”
